RESEARCH MATERIALS ENCLOSED

Dear Gary:

Please find enclosed some research materials I thought would be useful and of interest to your personal research, files and archives.

Any materials you care to send in return would be MOST APPRECIATED and will let me know that the enclosed arrived in good order and that you wish to receive additional materials from me. [I have even attached a preprinted shipping label at the bottom of this letter to help you out!] Feel free to let me know in what research areas you wish to receive additional materials and I will try to send items you need.

No need to send a personal letter with any exchange materials sent to me in return, I know full well the time limits of fellow researchers - [hence this form letter for which I apologize]

I shall look forward to your reply!
Sincerely yours in research,
Roderick B. Dyke
